Easing the burden for you and your operations

COUNTER FRAUD SERVICES

NEXIA SJ TANZANIA offers a comprehensive range of professional forensic services including detection, investigation and sanctioning of fraud, we also offer specialist Counter Fraud Services which focus on fraud as a business cost.

We help clients to accurately measure the scale of their losses, to reduce them and thereby to deliver significant financial benefits.

We are pioneer member of **International Institute of Certified Forensic Investigation Professionals** and we have trained professional staff for fraud investigations assignments so now Nexia SJ Tanzania has the capacity to undertake cost-effective Fraud Resilience Checks.

Pre-audit and Monthly Verification of Expenditure

For a long time, Donor agencies expect monitoring and review to be done mainly by external experts as they are expected to be independent and objective and NGOs, have for many years appreciated the value of M&R done by the external experts. It is more immediate and facilitates learning processes and brings in "a different perspective".

Many Donor agencies request Pre-audit of expenditure verification prior to release of additional funds to ensure that the funds are used for intended purposes. This enables monitoring of Projects as well as promotes accountability of the funds disbursed on the part of the NGO.

We also perform Monthly Verification of Expenditure for funds that have already been disbursed to provide continuance assurance that these funds are used appropriately.

Independent review of the financial reports performed by Nexia SJ Tanzania will add credibility to reports provided by NGO and provide confidence to the Donor.

We perform Internal Control Checks and report on whether the sound internal controls are in place and are operating as they should.

Accounting Software and Training

We can ensure that your organization is using the most appropriate accounting software. If you are frustrated with your existing system, or wish to implement a new or enhanced system, Nexia SJ Tanzania can give you objective advice on the best choices. Often, we find that existing software is perfectly adequate with just a few improvements required.

We also provide **Monthly review of the Accounting records** to ensure that all transactions are correctly posted in the right account code and that only valid transactions are posted.

Fund Management and Administration

We support a range of structures, asset classes and fund sizes. We deliver high quality reporting that can be created to suit your needs and requirements, adopting International, UK or US accounting standards as necessary. Our audit background provides in-depth experience and understanding of both administration and accounting issues enabling us to provide our services with a focus on problem solving.

Our team is comprised of a high standard of fully qualified professionals with extensive administration, accounting and regulatory compliance experience across varied asset classes, in addition to an in-house legal advisor. As part of our wider accountancy network we also have access to tax, audit and risk and recovery specialists.

We prepare and maintain Electronic Fixed Asset Register which provides all necessary details required to control and manage assets and their safe custody.

Our Payroll Consultants will help you negotiate a highly complex area of law that has strict penalties for failure to comply. We take care of all the forms and paperwork, organising our schedule to meet your timescales and ensuring that deadlines are met.

Tax Solutions for not-for-profit organisations

We work with over 100 NGOs and most International donor agencies so we understand the unique issues from your perspective. Minimising your tax costs, particularly VAT and employee taxes, and ensuring that your fund raising and operational arrangements are robust and efficient will help enhance the impact that your organisation can make. We offer all the services you need to support your compliance routines and can help you create tax-efficient structures for specific events such as property transactions.

Local expertise, global reach

We have more than 23,000 partners and staff operating from offices around the world. Wherever you do business, we can offer you local expertise backed up by the resources of an International firm.

Nexia SJ Tanzania is one of the leading firms of accountants and business advisers and specialises in advising the management of developing private and public businesses.

We pride ourselves on creating and sustaining supportive relationships where objective and timely advice enables our clients to thrive and develop.

Our clients benefit from an integrated approach based on our understanding of the key issues facing small and medium-sized businesses. This enables us to meet their needs at each stage of development and allows them to focus on building the value of their businesses.
